

Bowen Pedestrian Bollard

Model Number:

BB-41

Designer Notes

The Wishbone Bowen pedestrian bollard is the perfect solution for enhancing pedestrian safety in public spaces. Named after the picturesque island off the coast of British Columbia, this bollard is crafted with exceptional attention to detail and superior quality materials. Constructed from marine-grade aluminum, the Wishbone Bowen bollard is built to withstand harsh environmental conditions, including heavy rainfall and salty air. Its robust construction ensures that it can endure accidental impacts from vehicles while providing a highly visible boundary for pedestrians. What sets the Wishbone Bowen pedestrian bollard apart is its customizable design. The inside panel of the bollard can be easily branded with a logo, which can be changed as needed to reflect changing branding strategies. Additionally, the exterior can also be branded, making it an excellent marketing tool for businesses and organizations. Whether you're looking to improve pedestrian safety in a busy downtown area or enhance the aesthetic appeal of a park or plaza, the Wishbone Bowen pedestrian bollard is an excellent choice. Its durability, customizability, and versatility make it an investment you won't regret.
